## DETAILED ACTION

### *Status of Claims*

According to the Preliminary Amendment filed on 4/12/02, Claims 27, 40, and 52 have been amended. Claims 27-66 are pending.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

**Claims 27-28, 30-32, 39-41, 43-44, 51-53, 55-56 and 63-66 are rejected under 35 U.S.C. 102(e) as being anticipated by Bullen (US Patent No. 6,033,226). The rejection from the previous office action is maintained and incorporated herein by reference.**

**Claims 27-28, 32, 36-37, 39, 52-53, 60-61 and 63 are rejected under 35 U.S.C. 102(e) as being anticipated by Eggert et al. (US 6,193,519).**

1. [Claims 27 and 52]: Regarding Claim 27, Eggert discloses receiving control information having at least one training instruction regarding at least one task to be performed as part of a training exercise; managing a set of devices required to perform the training exercise; and directing one or more of the required devices to execute the at least one training instruction. See Abstract, Col.4: 4-15, 46-51, and Col.5: 8-18.
2. [Claims 28 and 53]: Claim 28 is considered to be an inherent feature of Eggert's invention.
3. [Claim 32]: Regarding Claim 32, Eggert discloses providing a result (i.e. feedback) of the operation to the client computer. See Abstract.
4. [Claims 36 and 60]: Regarding Claim 36, Eggert discloses wherein at least one of the set of one or more devices is a computer. See Col.5: 10-13.
5. [Claims 37 and 61]: Regarding Claim 37, Eggert discloses wherein the computer is a programmable logic controller (e.g. EKG monitor, temporary external pace). See Col.5: 10-13.
6. [Claims 39 and 63]: Claim 39 is considered to be an inherent feature of Eggert's invention.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

**Claims 29, 33-37, 42, 54 and 57-61 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bullen. The rejection from the previous office action is maintained and incorporated herein by reference.**

***Allowable Subject Matter***

Claims 38, 50, and 62 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Citation of Pertinent Prior Art***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Brush et al. (US 4,867,685)  
-audio visual instruction system

***Response to Arguments***

Applicant's arguments filed 4/12/02 have been fully considered but they are not persuasive. Regarding Claims 27, 40, and 52, as best understood by Examiner, Bullen discloses managing a set of devices (e.g. drill bit and workpiece) required to perform the training exercise; and directing one or more of the required devices to execute the at least one training instruction. See Col.10: 26-39.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chanda L. Harris whose telephone number is 703-308-8358. The examiner can normally be reached on M-F 6:30am-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Valencia Martin-Wallace can be reached on 703-308-4119. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9302 for regular communications and 703-872-9303 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1148.

**6/18/01**

**The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.**

**INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

**1. Correction of Informalities -- 37 CFR 1.85**

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

**2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.**

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made other than correction of informalities, unless the examiner has approved the proposed changes.

**Timing of Corrections**

Applicant is required to submit the drawing corrections within the time period set in the attached Office communication. See 37 CFR 1.85(a).

Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
